

JEL-3225ER

Executive Leather Wheeled Case

The JELCO® Executive Leather Wheeled Case once again sets the standard for compact projector cases.

Designed to meet U.S. airline carry-on regulations, this stylish genuine leather case protects most notebook-sized projectors and laptop computers including those with 16" LCD screens.

Rigid ABS plastic in the walls and high-density foam around the projector and laptop cushion impacts and absorb shocks. Three separate compartments: one for your projector, one for laptop computer and one for files and extra accessories.

Hook and loop straps secure both the projector and laptop in their own compartments. A zippered compartment on back of case is included for airline tickets.

The comfort grip, 5-section handle locks at 39" or 44" heights. Its corner mounted in-line skate wheels with self-lubricating bearings give you silent, tip free rolling.

Choose between the removable, curved non-slip shoulder strap or the padded carry handle when needed. Corner mounted front legs allow for stability when parked in a vertical position.

This case comes with JELCO's Limited Lifetime Warranty
