

OPTOMA RF 3D GLASSES ZF2300GLASSES

PREMIUM RF 3D GLASSES FOR THE GREATEST 3D EXPERIENCE

- ✓ Clear, bright 3D images with high contrast
- ✓ Easy to use - always in sync, with no line-of-sight required
- ✓ Stylish, lightweight, foldable design - only 1.38 oz
- ✓ One Size for all - fits over prescription glasses

Product Highlights

Developed in parallel with Optoma's "Full 3D" video projectors, the ZF2300 system is optimized to provide higher contrast & brighter images than ever before. Using RF (radio frequency) technology, the ZF2300 system is easy to install in the same room as the projector and eliminates line-of-site issues commonly found with IR based 3D glasses systems.

TECHNICAL SPECIFICATIONS
