# RemotePoint Presenter

Wireless Presentation System

## Programmed for Success.

Successful presentations begin with confidence—the confidence you'll discover when you arm yourself with RemotePoint Presenter, the most advanced presentation system in existence.

Combining powerful RF technology with thoughtful details, Presenter has unmatched style, range and versatility. The state-of-the-art remote features raised icons, the patented ClickTrigger™, a laser pointer and thumb maneuvered mouse. Specialized software provides ultimate presentation flair with more than 95 special effect tools to customize your next presentation.

The USB receiver gives you 100' of wireless range and doubles as a hard drive with 32MB of presentation storage space. Take your next presentation on the road, without having to lug a computer to your destination.

Prefer to keep it simple? Just plug in the USB receiver, pick up the RemotePoint Presenter and feel the power of successful presentations every time you take the stage.
