To Attach Presentation Drapery

1. Attach valance uprights to frame by locating the top of the bracket with the handles about 10½" from the top of the frame. The valance uprights attach to the frame in the same manner as the legs.
2. Unfold and attach valance and wing bar to uprights by sliding the shoulder rivets protruding from the bar into the U shaped brackets on the uprights.
3. Attach wing and valance drapes to the valance and wing bar.
4. Set screen up and make sure everything is positioned correctly.
5. Attach skirt brackets to the frame from the back of the screen and distribute them evenly across the bottom of the frame.
6. Unfold and lay skirt bar into the brackets from the front of the screen, then attach the skirt to the bar.
7. With the skirt attached rotate the skirt bar 90 degrees towards the screen so the skirt sits on top of the bar.
8. Da-Lite Ultra Velour can be washed in a washing machine and will continue to be flame retardant.
