## ConVA Student Response Hardware

## ConVA Student Response Software

The ConVA Student Response system is fully integrated with ConVA Audio-Visual Control and can be run with any AV device include the teacher remote, PC, Slate or tablet monitor.

### Formative and summative assessments

Create tests for formative and summative assessments. The ConVA interactive response system helps educators prepare clear, measurable material.

### Assessments

ConVA Student Response can be purchased with more than 60,000 assessments aligned to state and national standards.

### Instant feedback

Students see immediately how they did on each question. ConVA Student Response polls all students and displays results on screen i the educator chooses. Knowing how the class is doing enables teachers to review material if necessary.

### Ad hoc capability

Educators can pull resource material from any source using their computer, document camera, the internet or prepared assessments. This "ad hoc" capability enables educators to take advantage of "teaching moments" in the classroom.

### Reporting, grading and record keeping

Educators can download lesson results into Microsoft Excel for classroom monitoring. ConVA Student Response also delivers reports to administration for tracking at the classroom, school or district level.

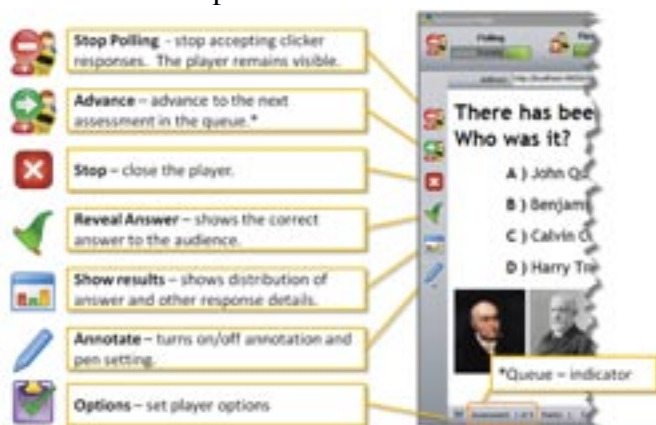

### Self-paced Instruction

ConVA enables self-paced instruction using paper printouts so students can engage lessons in their own learning style and at their own rate.

## ConVA Student Response Interface

Icons create simple user interaction
