

PBM Projector Mounts

Our PBM mounts have been the industry standard for more than 23 years. The various sizes of PBM mounts are designed for mounting projectors up to 350 lbs.

This mount offers:

- Mounting plate specifically designed for your projector
- Flat and angled ceiling mounting*
- +/-6° tilt from center
- +/-3° roll from center
- 360° of yaw when used with threaded pipe

*Angled ceiling mounting requires PP-T or PP-TL adapter (see page 42).

Complete PBM mount with optional adapter

The Anatomy of a PBM Mount

Our PBM mounts fit projectors of various sizes and weights. Each mount is designed with a different base box to accommodate these variables.

PROJECTOR

MOUNTS

Our PBM mounts have been the industry standard for over 23 years. The various sizes of PBM mounts are designed to mount projectors of up to 350 lbs. All PBMs feature +/-6° tilt from center, +/-3° roll from center and up to 360° of yaw when used with threaded pipe. The PBM series mates directly to a permanent structure or our popular PP-FCMA false-ceiling adapter (page 38). It also works with our PP-LSA lateral shift adapter (pages 42), our AST-2446 adjustable-height suspension adapters (page 42) as well as several other installation adapters and accessories.

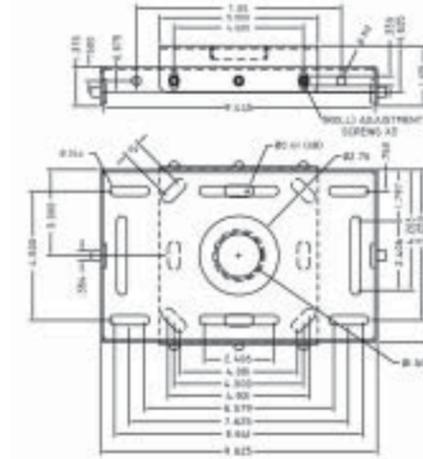

Find your projector manufacturer and model number online at www.mounts.com. Then select the mount that best suits your installation requirements.

Suggested List: \$199.99*

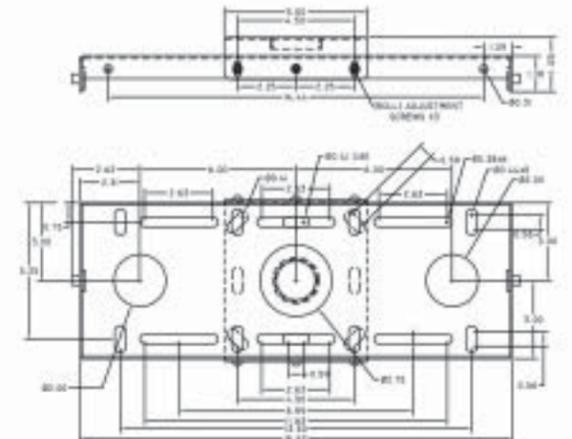

*Some mounts for larger projectors may cost up to \$424.99. Contact inside sales to confirm price.
