You hereby undertake to inform all users authorized by you to make use of the computing device on which the Software is loaded/installed ("Authorized Users") of the terms of this Software License and to bind all Authorized Users to accept all such terms of this Software License as applies to them.
2. Barco grants you a limited, non-exclusive, non-assignable, non-transferable user license (without the right to grant sublicenses). Unless specifically agreed upon otherwise between you and Barco or unless specifically allowed by the Software (or its DRM management) itself, i) the license under this Software License applies to one (1) copy of the Software to be used on one single computing device and ii) installation on a computing device that may be concurrently accessed by more than one user shall not constitute a permitted use and a separate license is required for each active user connected to a computing device on which the Software is being used.
You and Authorized Users are entitled to use the Software for the purposes and in the manner set out in this Software License (and documentation), but neither you nor any Authorized User are entitled to: (i) sell or grant a security interest in the Software to other parties in any way, or to rent, lease or sub-license the Software to others without the express prior written consent of Barco; or (ii) exploit the Software or any of its component parts for any commercial purpose, other than use by you and/or Authorized Users of the Software.
Neither you nor any Authorized User may, whether in whole or in part, copy, translate, reverse engineer, derive source code from, modify, disassemble, decompile, create derivative works based on the Software, or remove any proprietary notices or labels on the Software, save as may be permitted by law or this Software License, without the prior consent, in writing, of Barco.
3. Barco (and Barco's licensors, as appropriate) retain ownership of all intellectual property rights in the Software and any copies you or any Authorized User may make of such Software. The Software is protected by national copyright laws, international copyright treaties and conventions, and other applicable laws. All rights not expressly licensed to you in this Software License are reserved to Barco and Barco's licensors, as appropriate. The Software contains certain other licensed materials and Barco's licensors may protect their rights in the event of any violation of this Software License.

4. Barco shall hold you harmless, defend and indemnify you from and against direct damages, losses and expenses arising from infringement or alleged infringement of any patent, trademark or copyright of such third party by the license and the right to install the Software as permitted by this Software License and settle at its sole expense any amounts awarded in a final judgment or settlement resulting therefrom, under the condition that (i) you promptly notify Barco in writing after a claim has been asserted against you or the commencement of any claim, action, suit or proceeding (whichever is the earlier), and (ii) Barco shall be allowed to assume sole control of the defense and any settlement negotiations related to any claim, action, suit or proceeding, and (iii) you shall not negotiate, settle or compromise any claim, action, suit or proceeding without the prior written consent of Barco and (iv) you, at your cost, shall cooperate with Barco and provide assistance and support, as may reasonably be required by Barco, in connection with the defense and any settlement negotiations related to any claim, action, suit or proceeding. Barco shall have no indemnity obligation for any Software, or any portion thereof, (i) that is based on specifications, drawings, models or other data furnished by you or, (ii) that is not provided by Barco or, (iii) that is modified, in spite of the prohibition for you to modify the software or, (iv) to the extent that you continue allegedly infringing activity after having been provided modifications that avoid the alleged infringement, or (v) where the use of the Software, or the combination or thereof with other Software, processes or materials or the distribution thereof rather than the Software itself is the primary cause of an alleged infringement. In case it has been determined by a finally awarded judgment that Barco infringed or misappropriated such third party rights or earlier, at Barco's discretion, it may, at its option and cost, (i) modify the Software in such a way that it shall not infringe upon or misappropriate the rights of the third party or (ii) obtain for you a license or other right to use the rights allegedly infringed or (iii) replace the Software in question with non-infringing Software. The remedies set forth in this paragraph shall constitute your sole and exclusive remedy and Barco's sole and exclusive liability for a third party claim that the Software infringes or misappropriates any intellectual property right of a third party.
5. The duration of this Software License will be from the date of your acceptance (as set forth above) of the Software (whereby you acknowledge that use of the Software implies acceptance), with no termination date, unless otherwise specified. You may terminate this Software License at any time by destroying all copies of the Software then in your possession and returning all associated materials and documentation, to Barco or the appointed Barco reseller that sold or provided these to you. Guarantee and Compensation

Barco provides a guarantee relating to perfect manufacturing as part of the legally stipulated terms of guarantee. On receipt, the purchaser must immediately inspect all delivered goods for damage incurred during transport, as well as for material and manufacturing faults Barco must be informed immediately in writing of any complaints.

The period of guarantee begins on the date of transfer of risks, in the case of special systems and software on the date of commissioning, at latest 30 days after the transfer of risks. In the event of justified notice of complaint, Barco can repair the fault or provide a replacement at its own discretion within an appropriate period. If this measure proves to be impossible or unsuccessful, the purchaser can demand a reduction in the purchase price or cancellation of the contract. All other claims, in particular those relating to compensation for direct or indirect damage, and also damage attributed to the operation of software as well as to other services provided by Barco, being a component of the system or independent service, will be deemed invalid provided the damage is not proven to be attributed to the absence of properties guaranteed in writing or due to the intent or gross negligence or part of Barco.

If the purchaser or a third party carries out modifications or repairs on goods delivered by Barco, or if the goods are handled incorrectly, in particular if the systems are commissioned operated incorrectly or if, after the transfer of risks, the goods are subject to influences not agreed upon in the contract, all guarantee claims of the purchaser will be rendered invalid. Not included in the guarantee coverage are system failures which are attributed to programs or special electronic circuitry provided by the purchaser, e.g. interfaces. Normal wear as well as normal maintenance are not subject to the guarantee provided by Barco either.

The environmental conditions as well as the servicing and maintenance regulations specified in the this manual must be complied with by the customer.

These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

If this equipment does cause interference with radio communications services, which can be determined by turning the equipment off and on, you are encouraged to try to correct the interference by one or more of the following measures:

Pairing of the Buttons with the Base Unit

To be able to use a Button it should be assigned to the Base Unit you are using. This process is called pairing. By default, the two Buttons delivered with the ClickShare set are already paired to the specific Base Unit.

In case you buy additional Buttons or when a Button should be assigned to another Base Unit, the Button needs to be paired (again). When updating the Base Unit software, it is advised to also pair your Buttons with the Base Unit to update their software.

A Button can only be paired to one Base Unit at a time.

The Button will always make connection to the Base Unit it was last paired to.

To pair a Button to the Base unit

1. Insert the Button in the USB port at the front of the Base Unit you are using.

Image 3-16
Pair button

Both the LEDs of the Button and the LEDs of the Base Unit are blinking white. This means pairing is in progress.

The Base Unit automatically checks whether the software of the Button is up to date. If not, the Base Unit updates the Button software. This may take more time.

During the pairing and update process, a small status bar is display.

Image 3-17
Pairing message

The result of the pairing process can be as follows:

- When the LEDs become static white, the Button is paired to the Base Unit, but no software update was needed. You can unplug the Button from the Base Unit.
- When the LEDs become static red, the Button is paired to the Base Unit and the software update has finished. You can unplug the Button from the Base Unit.
