9 Important Info

- Remove the lens before transporting the projector.  
- To save lamp lifetime, first switch the projector to standby mode and wait two minutes, then switch off the main power.  
- Ensure that the projector is operating with clean filters.  
- Do not block the ventilation in -and outlets.  
- Using the projector at a non recommended tilt angle will reduce the lifetime of the lamps or create unexpected behaviour of the unit.  
- Laser light can cause severe damage to the DMD. This damage is not covered by warranty.

For more information and Maintenance Guidelines, check the Detailed User Manual on: <http://www.barco.com/en/products-solutions/projectors>
