ADVANCED .... see user manual

10 Important Info
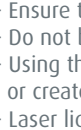

⚠ - Remove the lens before transporting the projector.
- To save lamp lifetime, first switch the projector to standby mode and wait two minutes, then switch off the main power.
- Ensure that the projector is operating with clean filters.
- Do not block the ventilation in -and outlets.
- Using the projector at a non recommended tilt angle will reduce the lifetime of the lamps or create unexpected behaviour of the unit.
- Laser light can cause severe damage to the DMD. This damage is not covered by warranty.
