DESCRIPTION

The EST200 dual stud short-throw projector wall mount allows lateral shift adjustment of the mount after installation. With the mounting arm, the projector can be mounted up to 30 in. from the wall. The mount also features discreet cable routing through the mount arm and Radial Glide™ for up to six degrees of smooth adjustment in any direction.

FEATURES

- Includes universal mount
- Cable management inside poles
- Mount carriage slides along projector arm for screen size adjustments
- Fits most short-throw projectors
- Dual or single pole installation
- Lock-It security hardware with Lock-It leveling barrel included
- Post installation lateral shift adjustment
