# FTP-096 / PDS-096 Projector Bracket Installation Instructions

Lock-It™ Security Hardware Pack

Your Premier Mounts bracket comes with the option of using Lock-It™ Security Screws. Simply replace any of the Phillips head screws with the corresponding sized Lock-It™ Security screws and tighten using the appropriate Security Allen wrench.

- or -

When you see these graphics associated with a step, you have the option of using the standard mounting hardware or the Lock-It™ Security hardware.

Step 1

Projector shown is for example purposes only.
Images not to scale.

❶ Invert the projector and place it on a soft, flat surface.
❷ Remove any foot levelers that might prevent bracket installation.
❸ Locate the mounting points on the projector.
❹ Place the bracket on the projector.
❺ Align the mount holes on the bracket with the mounting points on the projector.

Step 2

- or -

❶ Insert one (1) M8 x 10mm pan Phillips screw or one (1) M8 x 10mm Lock-It™ security screw into each mounting point.

❷ Tighten the mounting hardware.

⚠ Do not overtighten the mounting screws.

Parts List

FTP-096 / PDS-096
Bracket (Qty 1)

M8 x 10mm
Pan Phillips Screw
(Qty 6)

M8 x 10mm Lock-It™
Security Screw
(Qty 6)

Step 3
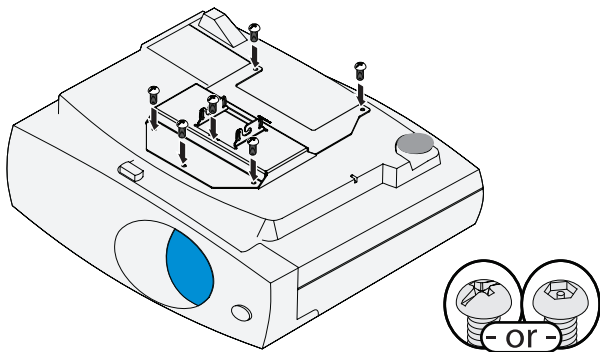

❓ Which base are you attaching to your projector bracket?

● PDS - Proceed to the **"PDS Base Box Installation"** section.

● FTP - Proceed to the **"FTP Quick Set Base Installation"** section.

PDS Base Box Installation

Step 4

- or -

❶ Place one (1) nylon washer and one (1) ¼" flat washer over the hinge pin.

❷ Insert and tighten one (1) M6 x 12mm screw (supplied with the PDS Base Box).

❸ Repeat ❶ and ❷ for the opposite hinge pin.

☞ You can use either the standard hardware or Lock-It™ security hardware. Replace eight (8) M6 x 12mm screws and one (1) M6 x 8mm set screw (supplied with the PDS base box).

⚠ Do not overtighten the M6 x 12mm screws or the M6 x 8mm set screw.

❹ Install the PDS Base Box onto your ceiling or 1½" NPT pipe as per the PDS installation instructions.

❺ Slide the projector / Projector Plate assembly onto the PDS Base Box.
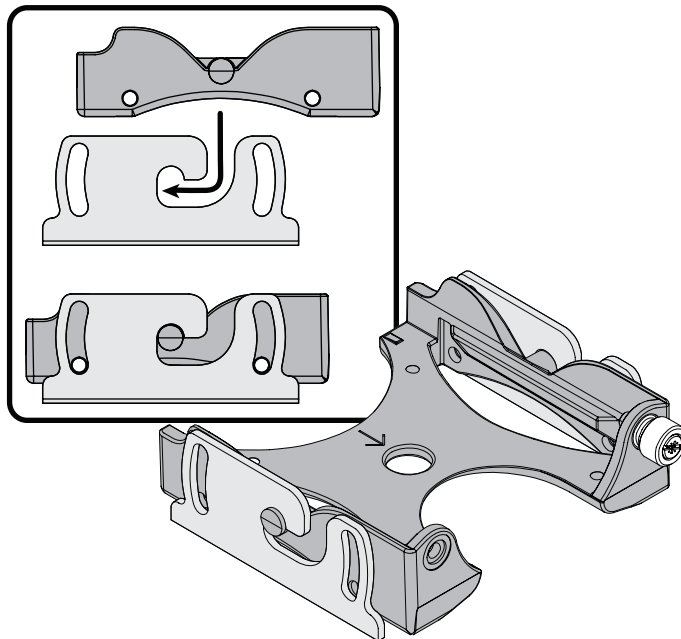

❻ Hook the Projector Plate over the hinge pins, as shown.

Step 5

- or -

❶ Insert the four (4) M6 x 12mm tilt adjustment screws, two (2) per side (supplied with the PDS Base Box).

☞ You can use either the standard hardware or Lock-It™ security hardware.

❷ Tighten all screws.

⚠ Do not overtighten the mounting screws.

❸ Follow the PDS Installation Instructions to complete the installation.

FTP Quick Set Base Installation

Step 4

❶ Install the FTP Dome onto your ceiling or 1½" NPT pipe according to the Fine-Tune Projector Mount installation instructions.

❷ Slide the Quick Set Base onto the projector bracket and hook the Projector Plate over the Quick Set Base hinge pins, as shown.

Step 5

- or -

❶ Insert one (1) M6 x 12mm screw into each of the indicated locations (supplied with the Quick Set Base).

☞ You can use either the standard hardware or Lock-It™ security hardware.

❷ Follow the FTP Installation Instructions to complete the installation.
